

Academic Search Ultimate

The Ultimate Multidisciplinary
Research Tool for Scholars

Subjects Covered:

- Anthropology
- Astronomy
- Biology
- Chemistry
- Engineering
- Ethnic and multicultural studies
- Geography
- Law
- Mathematics
- Pharmaceutical sciences
- Physics
- Psychology
- Religion and philosophy
- Science and technology
- Veterinary science
- Women's studies
- Zoology
- And more

Unparalleled Journal Content

With thousands of peer-reviewed journals, Academic Search Ultimate is the most valuable multidisciplinary full-text journal database in the world. Providing the top journals in each field of study, it meets the needs of all students, in every discipline. In addition, it provides Ahead of Print content from key publishers.

Unrivalled Global Scope

With thousands of international full-text journals from North America, Africa, Asia, Oceania, Europe and Latin America, Academic Search Ultimate provides unparalleled regional coverage. Offering locally published content integrated with region-specific resources from all over the world, it provides a comprehensive research experience with a global perspective.

	Active Full-Text Peer-Reviewed Journals	Active Full-Text Peer-Reviewed Journals with No Embargo
Academic Search Elite	1,168	555
Academic Search Premier	2,669	1,276
Academic Search Complete	5,351	3,643
Academic Search Ultimate	9,353	7,325

Business Source Ultimate

The New Standard in Business Research

Unparalleled Journal Content

Providing students with a global perspective in their research, Business Source Ultimate (BSU) allows students to track business trends and topics worldwide with expanded international content. In addition, BSU offers access to *Harvard Business Review*, *Academy of Management Journal*, *Academy of Management Review*, *Management Science*, *Marketing Science*, *MIS Quarterly*, *Bloomberg Businessweek*, *Forbes*, *Fortune*, and many others.

Essential Industry Information

Business students can delve into case studies, country economic reports, SWOT analyses and company profiles, as well as interviews with executives. Researchers can access the Company View feature, which provides industry specifics for over 1.1 million companies worldwide. To round out research, supplemental access is provided for Regional Business News Plus, with regional U.S. & Canadian business publications. Research is enhanced with more than 66,000 videos from industry leaders, including Harvard Business Publishing, IGI Global, Kiplinger and others, plus more than 75,000 Associated Press videos.

Subjects Covered:

- Accounting
- Administration
- Banking
- Economics
- Finance
- Human resources
- Leadership
- Management
- Marketing
- Sales

Business Searching Interface

EBSCO's new Business Searching Interface (BSI) offers a clean, modern look to make business research more intuitive and efficient. With improved navigation and a visually appealing design, the new BSI delivers a unique search experience.

Students, faculty and researchers can easily browse leading business journals and magazines, search specific topics and easily locate country economic data, company profiles, industry information, and market research.

Features include:

- Discover Popular Topics
- Explore Featured Content
- Company Profile Reports
- Country Reports
- Industry Reports
- SWOT Analyses
- Featured Collections
- Browse Featured Business Magazines
- Spotlight On

Take your research to the next level

What is EBSCO Discovery Service?

EBSCO Discovery Service offers a “Google-like” search experience of everything the library offers including electronic resources, the library catalog, databases, e-journals, e-Books, and more.

Start your research with EBSCO Discovery Service. Simply enter your keyword, topic, or citation into the single search box and see relevant results.

EBSCO Discovery Service allows you to:

- **Filter resources**
- **Save items or searches**
- **Access e-Books**
- **Organize resources by project**
- **Enable advanced searching**
- **And more...**

- ① **Search Bar:** Enter your term or topic to search all the library offers
- ② **Quick Filters:** Refine a search without navigating away from results, this includes resources that have been peer-reviewed. Filters can be expanded to limit to type of resource, publisher, publication and more.
- ③ **Matching Publication:** Publications with titles that match your search. Ability to search directly in publication
- ④ **Research Starter:** Available for the most popular topics, Research Starter provides quick access to an overview article and links users to related information and detailed bibliographies.
- ⑤ **Save Item:** Save articles to your dashboard
- ⑥ **Export:** Ability to export the article through a variety of methods
- ⑦ **Related Subjects:** Explore related subjects through hyperlinks
- ⑧ **Hyperlinked Database:** Select link to conduct research in a specific database
- ⑨ **My Dashboard:** Login to save articles, view search history, review checkouts and holds and organize resources by project
- ⑩ **Research Tools:** Access journal publications and additional sources
- ⑪ **Concept Map:** A visual browse of subjects and related subjects

- ① **Peer Reviewed Indicator:** Indicates a peer-reviewed article
- ② **Article Export:** Save, cite, share or download article
- ③ **Publisher Information:** Denotes Journal Title, Date and Database (if applicable)
- ④ **Access Options:** Ability to view via PDF or other methods
- ⑤ **Download Option**
- ⑥ **Additional Information:** Includes title of article, authors, abstract, etc.

Services for Academic and Research Libraries

Discover why working with EBSCO to acquire and manage your journals and e-packages helps you make the most of your subscription spend.

With EBSCO's services for academic libraries you can...

Access Comprehensive Content

Explore content options — including e-journals, e-packages, print titles, and more — through the most complete and accurate title file in the industry, with more than 385,000 titles from 128,000 publishers worldwide.

Manage Subscription Workflows in One Central Location – EBSCONET

Simplify each step of the subscription management process—title selection, ordering, e-access activation, claims, renewals, and evaluation—all within a single, intuitive online platform. In addition, you can place service requests, view the status and communicate directly with your customer service representative from within EBSCONET. Renew e-journal package subscriptions accurately with system-enforced contract terms, make changes to your package title list and track spend in real time.

Optimize with Ease

Collect, consolidate and report on the usage of your e-resources. With our suite of management solutions, you have instant access to the data you need to quickly evaluate your collection.

Increase Usage

Enhance the end-user experience through simplified and streamlined access. With *SmartLinks+*[™], users get immediate, one-click access—whether searches originate in our EBSCOhost[®] databases or our industry-leading *EBSCO Discovery Service*[™].

Better Manage Print Titles

Replacement copies for damaged or missing issues are available from the two-year inventory of titles in the EBSCO Missing Copy Bank[®], and shelf-ready journals can be delivered to your library via the *EBSCO Journal Expediting Service* (JETS).

Rely on Highly-Skilled Customer Support

EBSCO offers personal service for your account and on-site instruction, as well as online training and helpful instructional videos that are available at any time.

Inspec with Full Text

An Essential Full-Text Resource
for Engineering, Physics, and
Computer Science Research

Produced in collaboration with experts at the Institution of Engineering and Technology (IET), Inspec with Full Text provides access to the world's leading scientific and technical literature. Covering disciplines such as physics, electrical engineering, electronics, computing, and more, this database offers unparalleled depth and accessibility for researchers worldwide by combining full-text content with Inspec's specialized indexing and classification.

Active Full-text Journals and Magazines

	TOTAL*
Active full-text journals and magazines	1,504
Active full-text, peer-reviewed journals	1,479
Active full-text, peer-reviewed journals with NO embargo	818
Active full-text journals indexed in Web of Science or Scopus	1,337

*Projected figures by April 2025

Inspec Analytics

Inspec Analytics uses semantic enrichment to help researchers explore beyond traditional literature. It identifies and compares research trends across thousands of organizations and scientific concepts, providing both local and global insights. Integrated access is available through the EBSCOhost or EBSCO Discovery Service results page.

Included with the Inspec with Full Text subscription.

Inspec Analytics Plus

For deeper insights into global research impact, Inspec Analytics Plus offers advanced features that allow you to:

- Understand global scientific trends with citation metrics for thousands of concepts.
- Maximize research impact by exploring highly cited topics and potential collaborators.
- Benchmark your organization's research performance.
- Evaluate the success of collaborative partnerships.
- Accelerate your funding search by identifying top funders and tracking trends over time.

Analytics Plus can be added to any Inspec or Inspec with Full Text subscription.

Inspec with Full Text provides significant coverage in subjects including:

- Astronomy and Astrophysics
- Computing and Control
- Electrical Engineering and Electronics
- Information Technology
- Mechanical and Production Engineering
- Physics

It also integrates research across multidisciplinary fields such as bioengineering, nanotechnology, and environmental science.

About the IET

The Institution of Engineering and Technology (IET) drives positive change in the global engineering community by inspiring and informing professionals worldwide. Positioned at the intersection of engineering and technology, the IET champions knowledge sharing to address the challenges that matter most.

Mathematics Source

The largest collection of mathematical sciences journals

Explore current trends and related topics surrounding mathematics. Mathematics Source provides researchers with access to the most in-depth collection of full-text journals covering mathematics as well as a unique thesaurus.

Created by subject matter experts, the Mathematics Source thesaurus contains over 4,000 terms covering topics in both pure and applied mathematics, helping researchers to understand and easily navigate the unique terminology used in the discipline.

CONTENT INCLUDES:

- **800+** active full-text journals and magazines
- **500+** active full-text, peer-reviewed journals with no embargo
- **4,000-word** specialized thesaurus
- **Hundreds** of international journals for a global perspective

TOPICS COVERED:

- Algebra
- Calculus
- Combinatorics
- Differential equations
- Dynamical systems
- Geometry
- Information theory
- Logic
- Number theory
- Probability
- Signal processing
- Statistics
- Topology
- Trigonometry

MEDLINE Ultimate

Access the largest collection of the leading biomedical journals

MEDLINE Ultimate features unmatched evidence-based and peer-reviewed full-text content, essential to medical professionals and researchers. It offers more full text of top journals and more international journal coverage than any other MEDLINE database.

Coverage of 500+ Subjects:

- Biomedical engineering
- Biomedicine
- Genetics and genomics
- Health policy development
- Histology
- Immunology
- Neurology
- Pain management
- Pathology
- Pharmacology
- Pre-clinical science
- Public health
- Sleep science
- Toxicology
- Virology

Broad Journal Content:

- More than 2,500 active full-text journals and magazines
- More than 5,200 active indexed journals
- Full-text coverage dating back to 1880

Additional Content:

- Ahead of Print content
- MeSH Subject Headings

	MEDLINE with Full Text	MEDLINE Complete	MEDLINE Ultimate
