ACS Publications

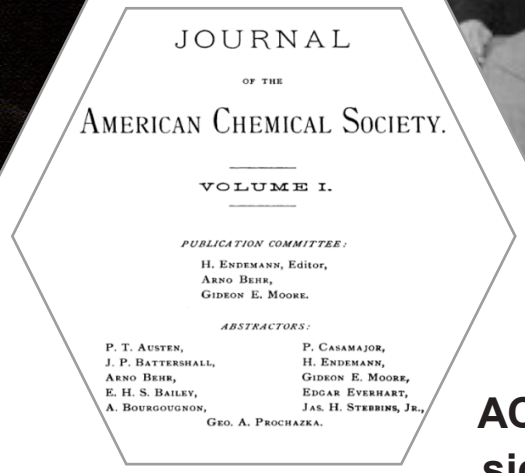

ACS Publications: Supporting Research, Discovery, and Scholarly Communication

ACS Was Born in the 19th Century

Founded in 1876

Flagship journal launched in 1879

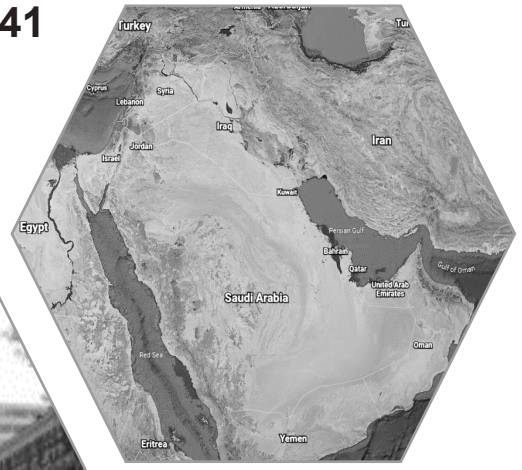

J. Am. Chem. Soc.
1879 *1* (1)
DOI:10.1021/ja02143a700

ACS national charter signed by Roosevelt in 1937

Headquarters established in 1941

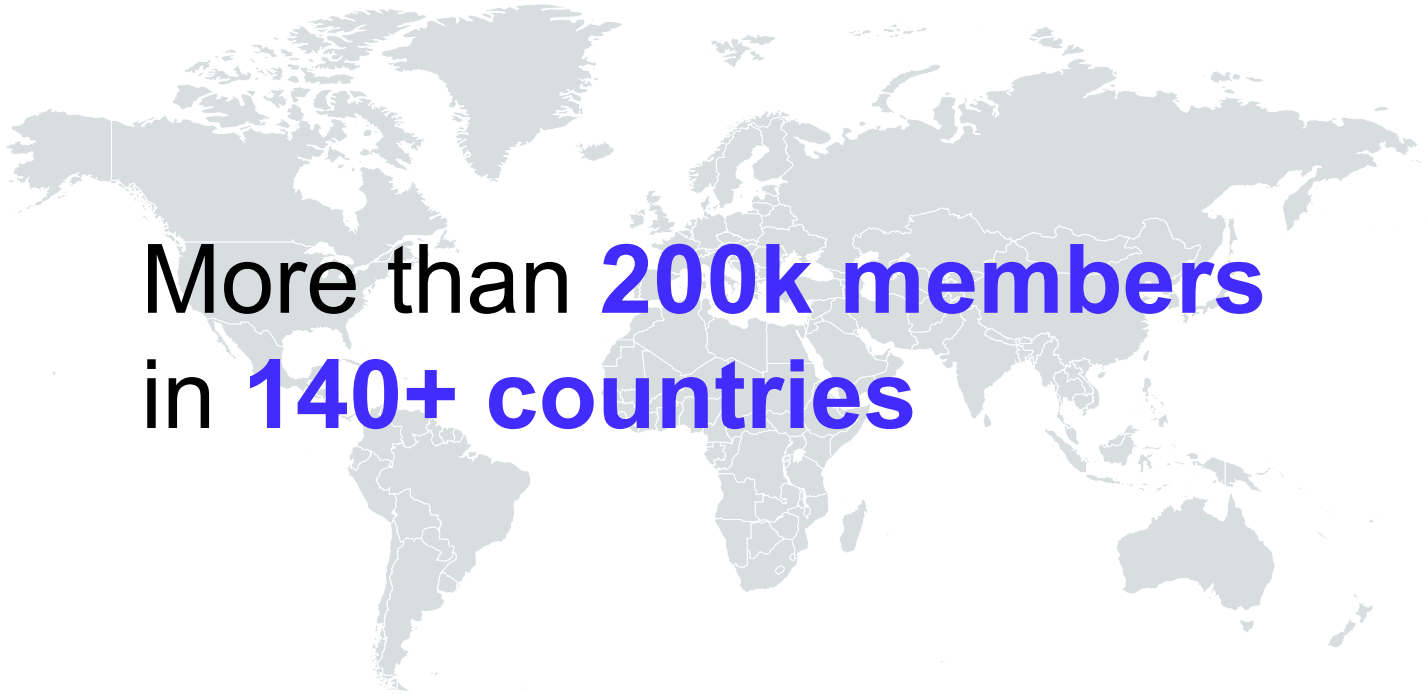

First international chapter established in 1993

ACS is the World’s Largest Scientific Society

More than **200k members** in **140+ countries**

Our Commitment

Improving all people’s lives through the transforming power of chemistry

Our Vision

A world built on science

Our Mission

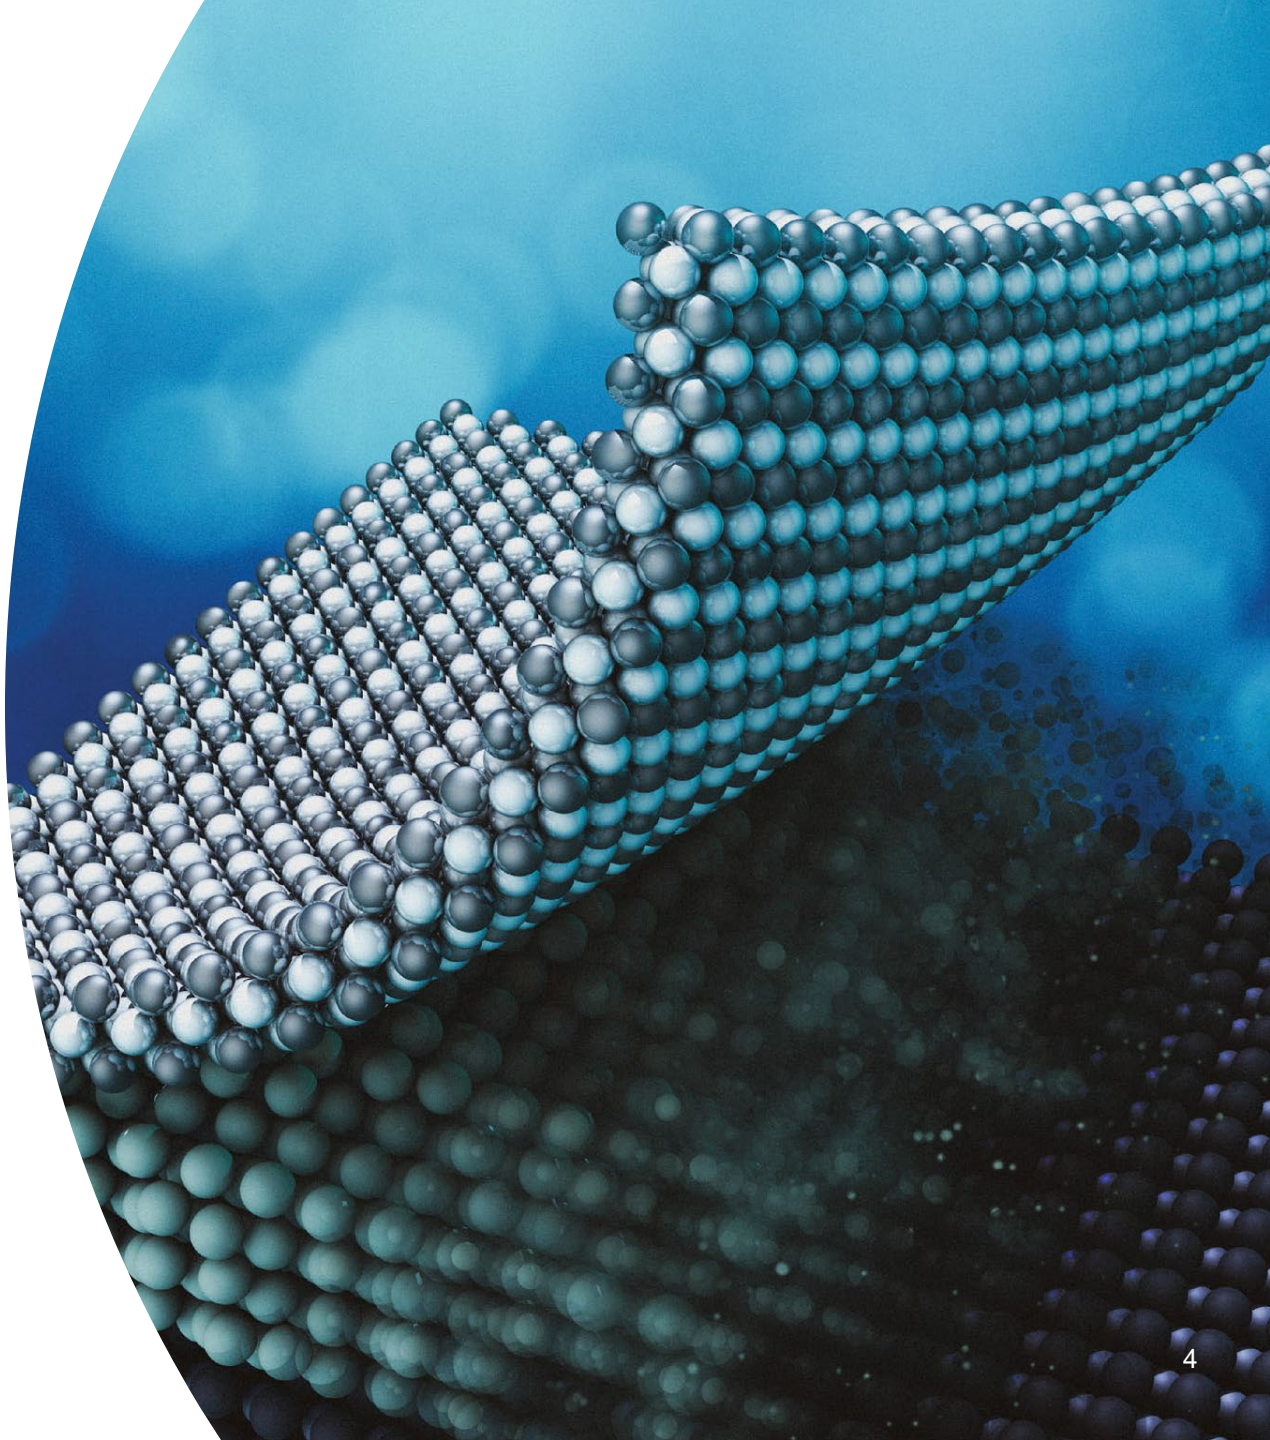

- Advance scientific knowledge
- Empower a global community
- Champion scientific integrity

© 2026 American Chemical Society. All rights reserved.

ACS Publications

ACS Publications is home to the world's **most trusted, most cited,** and **most read**: journals, digital books, and educational materials in every area of chemistry and its many related fields.

- Articles published with ACS average the most citations in chemistry according to 2025 Clarivate Journal Citation Reports™
- More than 346 million journal articles and chapters were accessed in 2025
- More than 300,000 authors published in 2025

© 2026 American Chemical Society. All rights reserved.

A Diverse Portfolio of Journals

In addition to every area of chemistry, ACS Publications journals also cover important discoveries in:

- Agriculture, food, and the environment
- Biotechnology and pharmaceuticals
- Education and safety
- Electronics
- Energy and transportation
- Healthcare
- Materials science and engineering

ACS Journals have High Journal Impact Factors™

2025 highlights include:

- *The Journal of the American Chemical Society (JACS),* ACS' flagship journal, garnered 628,967 total citations and a Journal Impact Factor™ of 16.6.
- *Chemical Reviews* remains the highest-impact journal in the Chemistry, Multidisciplinary category, with a Journal Impact Factor™ of 64.2.
- *ACS Central Science*, ACS' first fully Open Access journal, achieved a Journal Impact Factor™ of 11.1.
- *Accounts of Chemical Research* achieved a Journal Impact Factor™ of 18.0.

More than 70 Peer-Reviewed Journals*, Available in a Variety of Packages:

- **ACS All Access:**
  Access to all ACS journals, eBooks, ACS In Focus, News, and references such as *ACS Reagent Chemicals* and *ACS Guide to Scholarly Communication*.
- **ACS All Publications Package:**
  Unlimited access to all ACS journals (1996-present), including new titles as they launch.
- **ACS Legacy Archives:**
  Own or lease one of the most valuable and highly utilized collections of journals (pre- 1996).
- **ACS Core Plus Package:**
  Unlimited access to 20 in-demand ACS journals (1996-present), plus C&EN Global Enterprise, as well as tokens for non-subscribed content.
- **ACS Science Essentials Package:**
  Access to the front-files (1996-present) of any five ACS journals at a deep discount.
- **ACS Metered Access:**
  Pre-paid tokens for any ACS journal article, ACS eBook chapter, C&EN Global Enterprise news article, or *ACS Reagent Chemicals* monographs.
- **Individual Journals:**
  Chose any combination of individual journals. Combine this option with tokens to access an even broader range of content to support your organization.

*Package not required for gold open access journals, so they are not included here

ACS eBooks

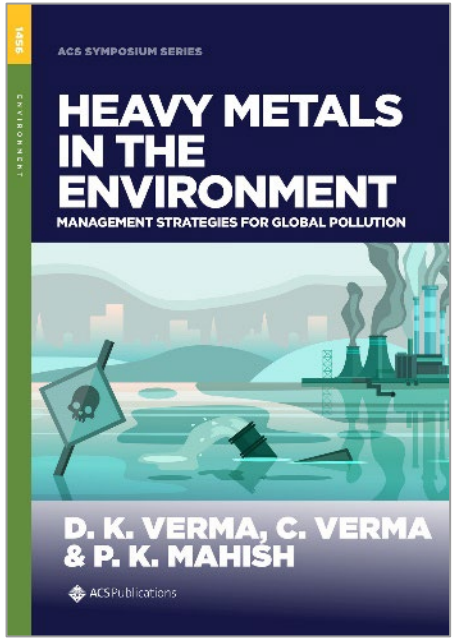

- Includes more than 1,700 books
- Covers almost every discipline impacted by chemistry, including policy, history, and education
- Written by the world's leading scientists, including 42 Nobel Laureates

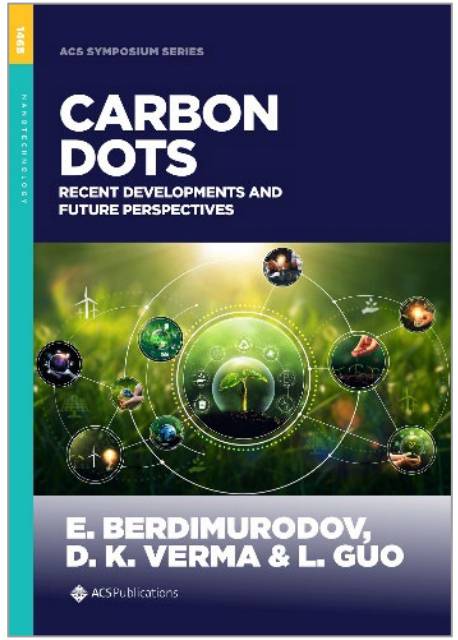

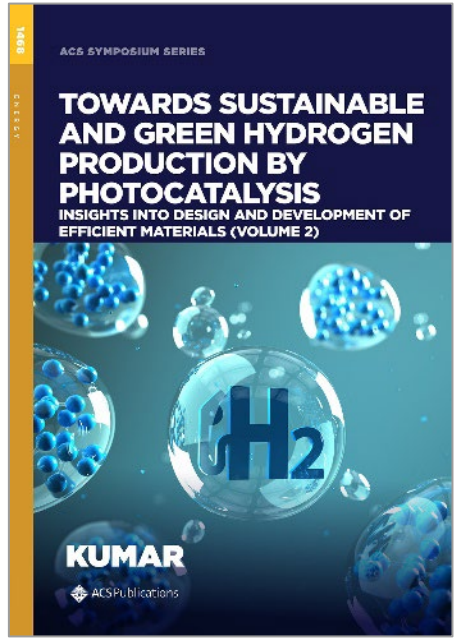

© 2026 American Chemical Society. All rights reserved.

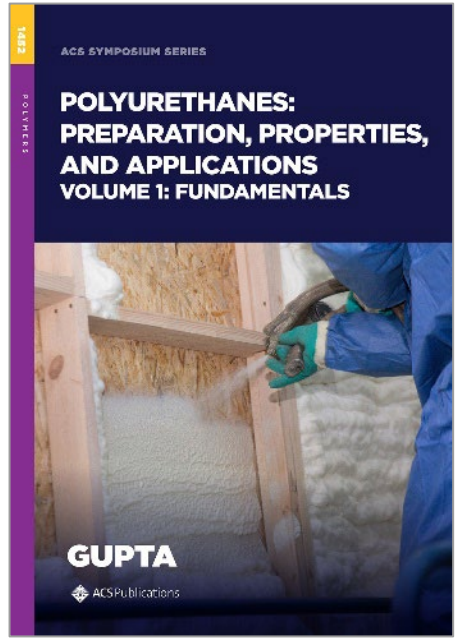

Popular Recent ACS eBook Titles Include

© 2026 American Chemical Society. All rights reserved.

ACS In Focus

Get readers up to speed quickly in important topic areas

- Designed to be read in 4-6 hours
- Incorporate multimedia features, such as graphics and video
- Use non-specialist language
- Cover both technical and non-technical subjects

© 2026 American Chemical Society. All rights reserved.

ACS on Campus

Get results. Get published. Get ahead.

ACS on Campus works with institutions to create strategic events that connect students and early career scientists with leaders in chemistry, publishing, research, science communication and career development.

This exclusive program powered by ACS and ACS Publications offers:

- Curated agendas feature interactive workshops, thought-leadership sessions, and more
- Events are free for hosts & attendees
- Complementary online resource portal and on-demand virtual event library

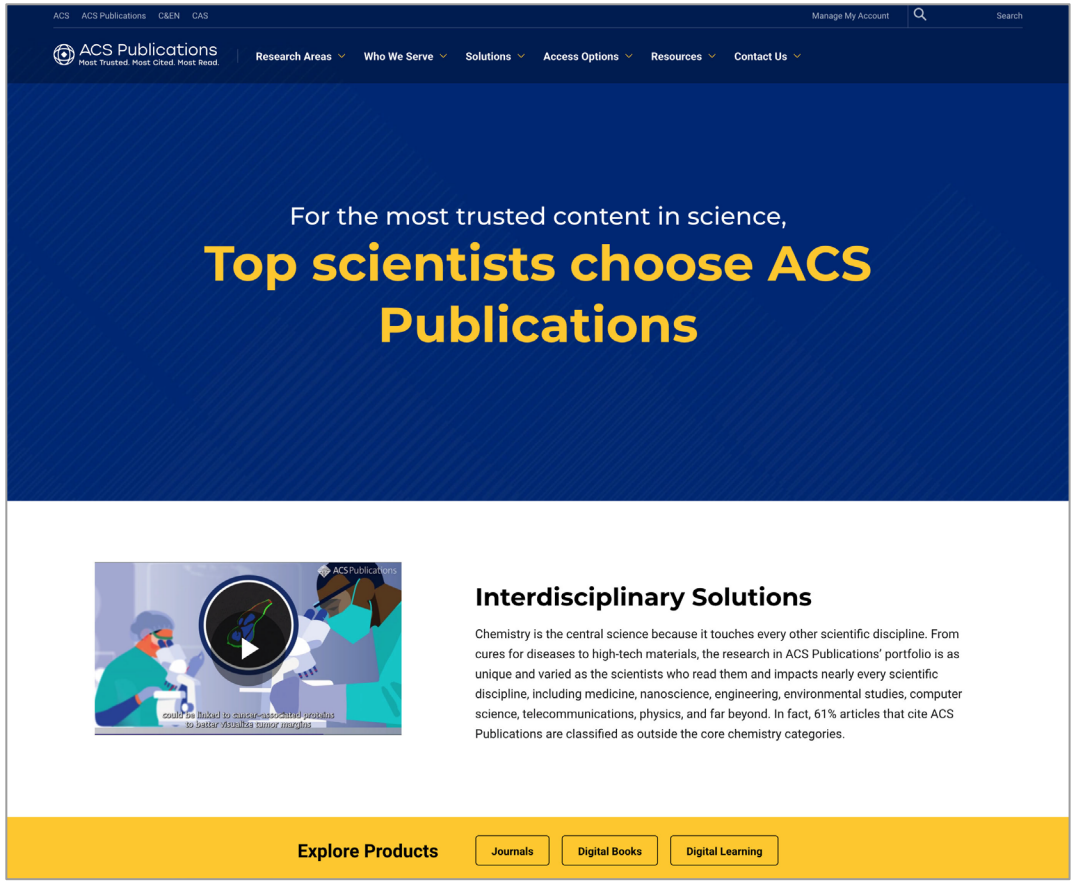

© 2026 American Chemical Society. All rights reserved.

ACS Solutions Center

- Get insight into ACS Publications' research areas, products, services, and access information for organizations
- Browse ACS Publications' solutions based on areas of interest and/or professional role
- Review access options
- Maximize the impact of your institutional subscriptions. We also have a dedicated page
- Access resources related to packaging, MARC and KBART files, sample licenses, and more

ACS Supports Open Science

- 22 fully open access journals covering every area of chemistry
- Authors can publish open access in all 90+ ACS journals
- ACS Journal Finder tool helps researchers ensure funder OA requirement compliance
- Other ACS initiatives that support open science include ACS Research Data Center, ChemRxiv, SciMeetings, and Text and Data Mining

ACS Open Access Roadmap

Author enablement
Articles on Demand program permits 50 free downloads during the first 12 months of publication. Manuscript deposit into institutional repository permitted after 12 months, if required.

Broad OA options
Authors invited to choose OA options in any ACS journal. Began work with Copyright Clearance Center (CCC) to streamline OA systems and processes.

OA discounts
Substantial discounts offered for authors affiliated with ACS and/or subscribing institutions.

$60 million ACS Author Rewards
Incentive program to drive author publishing experimentation during unfunded OA era.

ACS OA journals
ACS Central Science and *ACS Omega*, designed to demonstrate high-profile support and community engagement for open access.

Offsetting leader
First country-level offsetting agreement with Netherlands. Dozens follow.
Introduced CCC platform to expedite approval and payment.

ChemRxiv®
ACS led the launch of a preprints service in chemistry and related areas. Created in collaboration with multiple societies.

Read and Publish
Developed institutional workflow for OA agreements with CCC.

JACS Au
New *JACS Au* fully open access multidisciplinary journal announced to support OA and OA mandates.

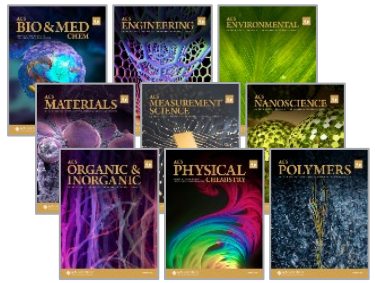

ACS Au journals
Nine new fully open access multidisciplinary journals launched.

Open Data Policies
Refreshed Open Science platform and launched Open Data Policies; 1,000+ read and publish agreements signed.

New OA options
New zero-embargo green open access option introduced for authors; launched ACS-sponsored open access publishing for authors at participating primarily undergraduate institutions.

Expanding open access
Chemistry Databank launched to facilitate data exchange; 1,500+ read and publish agreements signed.

ACS Read and Publish Agreements

- Help to speed the transition to open science
- Simple, streamlined process for authors to publish open access and meet funder mandates
- Institutions maintain access to ACS journal content
- More than 1,700 agreements signed in 50 countries/regions, with more coming

ACS Editorial Services

ACS Author Lab

ACS Author Lab is a free online course that empowers authors to prepare and submit strong manuscripts, avoiding errors that could lead to delays in the publication process.

ACS Reviewer Lab

ACS Reviewer Lab is a free, on-demand peer review training course that provides real-life guidance on how to navigate tricky ethical situations, identify core criteria for evaluating manuscripts and write a first-rate review.
